Landing Page Update Brief — For Wes

From: Dr. Brock | April 2026 | book.integraoc.com

Two specific changes to the GHL landing page at book.integraoc.com. Execute in the order listed. Do not make other edits until both changes are live and confirmed.

Change 1 — New Entry Offer

What is changing

The intro offer is changing from a 2-Visit Spine Reset ($99) to The Integra First Visit ($55). Every reference to "2 visits," "2-Visit," "Spine Reset," or "$99" must be updated across the entire page.

Why

The 2-visit format delivered too much treatment value upfront — two full sessions including decompression — which anchored patients to a low per-visit price and made care plan conversion harder. The new format delivers one focused clinical visit whose primary output is clarity, not resolution. Relief comes from the care plan. The ROF is scheduled before the patient leaves Visit 1, keeping the conversion window tight.

The offer — use this exact language

NAME	The Integra First Visit
PRICE	$55
QUALIFIER	New patients only.
VISIT 1 INCLUDES	Full examination and movement assessment Postural analysis One targeted chiropractic adjustment Clinical findings — you leave knowing exactly what is wrong and why it matters Visit 2 (Report of Findings) scheduled before you walk out
VISIT 2 (NO CHARGE)	Report of Findings — full picture of your spine, what it means long-term, and what correction looks like. You decide whether to move forward. No pressure.
TAGLINE	*You arrive with symptoms. You leave with answers.*

What to remove

Remove all references to spinal decompression being included in the intro offer. Decompression remains on the page only in the services and pricing section at the bottom as a standalone offering with its own price.

Change 2 — Full Copy Rewrite

Replace all existing page copy with the sections below. Page structure and layout stay the same — only the words change. Match each section label to its corresponding block in GHL. Work top to bottom.

Hero Section

HEADLINE	That tightness between your shoulder blades isn't random.
SUBHEAD	Find out what's actually causing it — and what it takes to fix it.
OFFER TAG	The Integra First Visit — $55 · New patients only.
CTA BUTTON	Book My First Visit →

Who This Is For

Section intro: This is for you if:

- You feel tension between your shoulder blades by midday
- Your neck and upper back tighten up after hours at a screen
- Your low back aches by the end of the day
- You stretch, but the tightness always comes back
- You know something is off — you just haven't dealt with it yet

What's Included

Section intro: Your Integra First Visit includes:

- Full examination and movement assessment
- Postural analysis
- One targeted chiropractic adjustment
- A clear clinical picture of what is causing your symptoms
  X-rays ordered if clinically indicated
- Your Report of Findings visit — scheduled before you leave

Everything is specific to your body. Nothing generic.

How It Works

VISIT 1	We assess exactly where your spine is under stress and why. You receive one targeted adjustment. You leave with a clear clinical picture of what is happening in your spine — and your Report of Findings visit is scheduled before you walk out.
VISIT 2	We walk through everything we found. You see exactly what is happening, what it means long-term, and what correction looks like. You decide whether to move forward. No pressure.

NOTE	*No long-term commitment required to start.*

Meet Dr. Brock

Dr. Brock Clements focuses on one thing: finding the root cause of your discomfort and correcting it — not managing it indefinitely. If you sit at a desk, work long hours, or carry stress in your neck and shoulders, you're exactly who this practice was built for.

Testimonials

■ DO NOT PUBLISH with placeholder testimonials. Current names on the page (Sarah M., Michael T., Jennifer L., David R.) are not real patients. Hold this section until Dr. Brock provides verified patient quotes. All other sections can go live independently.

Why Integra

- Individualized — no two spines are the same, no two plans are identical
- Efficient — focused sessions that respect your time
- Honest — you'll always know exactly what's wrong and what it takes to fix it

Services Section — bottom of page

Keep the existing services and pricing list. Make two additions: (1) add Sports Massage (30 min and 60 min) as a bookable service. (2) confirm Spinal Decompression is listed here as a standalone offering with its own price — it must not appear anywhere as part of the $55 First Visit.

Closing CTA

HEADLINE	Book Now — $55 · New Patients Only
BUTTON	Book My First Visit →

Execution Sequence

1	Replace all "2-Visit Spine Reset" and "$99" references with "The Integra First Visit" and "$55 — New patients only"
2	Remove spinal decompression from the intro offer description entirely
3	Add Sports Massage as a bookable service in the services section
4	Swap in new copy section by section using this document — work top to bottom

5	Confirm all CTA buttons route correctly to GHL or Jane booking flow
6	Publish all sections except testimonials
7	Replace testimonial placeholders with real patient quotes when provided by Dr. Brock — then publish that section
